Reviews

A brand new electronic book with a new standpoint. It is written in basic phrases rather than confusing. It has been designed in an extremely basic way which is merely right after I finished reading through this publication where it basically altered me, change the way I believe.

Excerpt: indulged a variety of conjectures as to the cause of such a multitude of dry bones in one sepulture, deposited there over two hundred long years, as witnessed to by the presence of a large maple tree immediately over the centre, whose roots were interlaced in every possible manner with the relics--thereby hangs the tale. To imagine that disease, or war, accounted satisfactorily for their appearance there was not to be entertained, for the compactness and order observable in the arrangement of the bones, forbid thy possibility that their bodies could have been interred with them: and the occasional patches of ashes and calcined bone would lend to the supposition that fire had been employed to destroy the soft and easily decaying parts of the bodies. Then again, the deer-skin exhumed was easily recognizable, and just in that state of preservation that we might expect to find in some of the dense fibrous tissues of the human subject. On the other hand, it is characteristic to find these burying places with their surfaces much below the surrounding earth--in many cases some feet, although originally they must have been considerably elevated, and presenting the appearance of mounds. This would seem to argue that at one time the bulk of their contents were much larger than they now are; and that, in addition to the unerring force of gravitation, som chemical changes have been set up, reducing compound substances to simple elements, as we might suppose...
