

Magnetic Resonance Spectroscopy of Breast Tumors

By Gary M. Tse

Nova Science Publishers Inc. Hardback. Book Condition: new. BRAND NEW, Magnetic Resonance Spectroscopy of Breast Tumors, Gary M. Tse, This book aims to provide a basic understanding of the principles of in vivo Magnetic Resonance Spectroscopy (MRS), a pioneer technique which is now finding increasing clinical uses in detection of cancer in a non-invasive manner and provide a comprehensive evaluation and assessment of the current status of MRS in the field of breast tumor detection. It also provides an updated, concise review on breast tumor pathology and MR imaging. It offers some introduction into the in vitro MRS and other future potential diagnostics in the field of breast tumours.

Reviews

I just started reading this article pdf. it was actually writtern very properly and useful. You wont really feel monotony at whenever you want of your respective time (that's what catalogs are for relating to in the event you question me).
