BRAND NEW, The Type II U-boat, Waldemar Goralski, The Type II U-boat - The latest book in Super Drawings in 3D series presents a brief description of the German Type II coastal submarines along with their general characteristics. Since "an image can speak a thousand words", the text is accompanied by 160 renderings which show the external appearance of all four sub-types including details such as various conning towers and armament variants as well as other fittings. Blueprints of the four sub-types in 1:144 scale (general and isometric views) are included on a separate sheet. This publication is an invaluable help to any modeller interested in building a replica of any of the Type II submarines.
