Scholastic US. Mixed media product. Book Condition: new. BRAND NEW, Book of Paper Airplanes, Doug Stillinger, Making Paper Airplanes doesn't feel like science. And it's not quite art. Near as we can figure, it's magic. Paper Airplanes fly because of good, old reliable physics. And it takes a sharp eye and a clean fold to make them right. But launching a regular old piece of paper into the sky so that it soars, loops and glides - that's pure magic. We present here a complete guide to folding aerobatic amazements. The ten airplanes in this book are the best we've ever seen: easy to make, forgiving of mistakes, attractive and flight-ready under all kinds of conditions. Clear instructions and step-by-step illustrations make even the most impressive planes kid do-able while trimming and tweaking tips give basic principles of flight instant real-world relevance. This big book comes complete with 40 sheets of flight-tested, ready-to-fold paper, printed on both sides in a variety of 20 colourful patterns, including leopard print, wood grain, hot rod flames and lose-it-on-the-lawn grass. It's everything you need to rule the skies.
