networks
SNR optimization under power constraints for
multiple-access cooperative networks

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | SINR optimization under power constraints for multiple-access cooperative networks | The demand for high speed reliable communication systems will never stop increasing. Many challenges face researchers trying to provide such systems and schemes. Cooperative networks have been successfully used to enhance the performance of telecommunication systems. Among different cooperative strategies, distributed cooperative relaying have shown to be a promising scheme. This work addresses the problem of optimizing the precoding vectors in order...
