ENERGY CASCADE ANALYSIS IN A VISCOELASTIC TURBULENT FLOW

Condition: New. Publisher/Verlag: Novas Edições Académicas | DNS of homogeneous and isotropic turbulence in a viscoelastic fluid | Direct numerical simulations (DNS) of homogeneous and isotropic turbulence in a viscoelastic fluid are done in order to study the kinetic energy transfers and the structures of the correspondent turbulent field, in both physical and Fourier spaces. The numerical algorithm is based on pseudo-spectral methods and the rheology of the fluid is represented by using the finitely extensible non-linear elastic rheological constitutive...
