John Wiley and Sons Ltd, United States, 2005. Paperback. Condition: New. Language: English . Brand New Book. How do plants make their own food? Why do the different strings on a guitar have different sounds? What does the color of a star tell you about how hot the star is? What s the difference between gamma rays, X-rays, and microwaves? Now you can discover the answers to these and many other fascinating questions about energy for yourself with this fun-filled science resource. Packed with illustrations, Janice VanCleave s Energy for Every Kid presents entertaining, challenging experiments and activities to help you understand the different types of energy--including heat, sound, electricity, and light--and how they bring about change in the world around you. You ll develop your problem-solving skills as you create a leaping frog that turns potential energy into kinetic energy, model sound waves with a Slinky?, use a balloon to demonstrate static electricity, make sun tea with solar energy, and much more! Each of the activities is broken down into its purpose, a list of materials, step-by-step instructions, expected results, and an easy-to-understand explanation. Plus, all projects have been pretested so you can perform them safely and inexpensively in the classroom, at a science fair, or at home!
