

## The Laplace Transform (Paperback)

Filesize: 7.84 MB

### **Reviews**

*The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.*  
**(Erica Turcotte)**

## THE LAPLACE TRANSFORM (PAPERBACK)

Dover Publications Inc., United States, 2010. Paperback. Condition: New. Dover. Language: English . Brand New Book. The theory of integral operators constitutes a major branch of analysis, and transforms represent an important subdivision. This volume focuses on the Laplace and Stieltjes transforms. Highly theoretical in its emphasis, this classic treatment was derived from a series of lectures by a prominent Harvard mathematician. Suitable for graduate-level mathematics majors, this introductory text explores fundamental formulas, the moment problem, monotonic functions, and Tauberian theorems. The Bulletin of the American Mathematical Society praised it as extremely satisfactory, noting that it will have a most valuable effect both on research and graduate study.
