EXTINCTION: BAD GENES OR BAD LUCK? (PAPERBACK)

WW Norton Co, United States, 1992. Paperback. Condition: New. Language: English . Brand New Book. In the geological record, there are five major mass extinctions-the Big Five. The most famous happened at the end of the Cretaceous Period, when the dinosaurs and two-thirds of all marine animal species were wiped out, opening the door for the age of mammals and the rise of Homo Sapiens. Using this example as a springboard, David M. Raup leaps into an engaging discussion of...

Here is the finest publication we have read right up until now. It is actually witter in easy words instead of difficult to understand. Its been written in an remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.
