RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 24 pages. Original publisher: Washington, D. C. : U. S. Govt. Accountability Office, 2007 OCLC Number: (OCoLC)181654751 Subject: Medical informatics -- United States. Excerpt: . . . care of separated service members as they transition to veteran status, as well as to the adjudication of disability claims. One of the departments demonstration projects - the Laboratory Data Laboratory Interface Initiative Sharing Interface (LDSI) - is now fully operational and is deployed when Allows VA and DOD to Share local agencies have a business case for its use and sign an agreement. It Lab Resources requires customization for each locality and is currently deployed at nine locations. LDSI currently supports a variety of chemistry and hematology tests, and, at one of the nine locations, anatomic pathology and microbiology tests. Once LDSI is implemented at a facility, the only nonautomated action needed for a laboratory test is transporting the specimens. If a test is not performed at a VA or DOD doctors home facility, the doctor can order the test, the order is transmitted electronically to the appropriate lab (the other departments facility or in some cases...
