UNDERSTANDING AUTISM THROUGH RAPID PROMPTING METHOD

Outskirts Press, United States, 2008. Paperback. Book Condition: New. 239 x 188 mm. Language: English . Brand New Book ***** Print on Demand *****.Soma Mukhopadhyay, like so many mothers, would not accept the conventional wisdom when her son Tito was diagnosed with severe autism. Defying the prognosis that Tito was incapable of accomplishing anything, Soma devised a way to teach her son to read, write and communicate. Tito is now a published author, and Soma has dedicated her life to teaching her revolutionary Rapid Prompting Method to hundreds of autistic children and adults throughout the world. Soma's work proves what many parents have suspected: that students with autism are capable of learning at academic levels previously thought unattainable. The power of an academic education improves the lives of all people, and the Rapid Prompting Method is the key to providing the gift of education and communication to students with autism. This groundbreaking book describes Soma's innovative technique, and for the first time in print, offers parents and educators a step-by-step guide to implementing this life-changing teaching methodology. It explores the science behind Soma's uniquely effective approach, and it gives how-to instructions for designing and implementing RPM lessons with various types of learners. Understanding Autism Through Rapid Prompting Method is a pivotal manual for educating persons with autism; it breaks down all barriers that have so long kept them in silent isolation. Soma is a gifted teacher who has given my son, and countless others with autism, a voice. Soma works with individuals who have previously been thought to be unteachable whom educators, therapists and physicians had all but given up on. Through her tireless efforts, Soma is slowly changing the way society views autism and how educators and parents approach it. Dr. Irfan Dahar, MD and Shazia...
