Great electronic book and useful one. It can be written in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This book represents a universal philosophy of the purpose of life, the way life works and ways to better living. Citing a range of well known teachers, philosophers and leaders from across the ages, Dr Kung weaves his own wisdom throughout in an easy to read and enjoyable way. Wisdom comes to us through our own seeking, finding, thinking, knowledge and insight. It is very difficult to impart, teach or tell anyone in words. To some, the wisdom of others may even seem foolish because we are at different stages of development. In this work, you will find pearls from the East and West. Our life purpose is a driving force that will help us to grow. It can inspire us how to act in order to move towards our authentic selves. We have to use it to shape our lives. The more we use it, the more fulfilling our lives become. We have to create our own philosophy of life. It has to be unique, so that it will be meaningful. Self discovery is a personal process and it takes time. Therefore, we need to provide space for our minds to grow and flourish. May this work serve to inspire you to put aside time to reflect, find your own light and set your own purpose in life in a way that will come with happiness and creation of a better place for every one.
