paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 64 Publisher: Yanbian University of Pub. Date :2011-6-1. This book is divided into six chapters. according to the authors many years of teaching experience with the actual situation of teaching increased by midterm and final test volume. to facilitate students to stage test. Each set of questions consists of two parts: 1. Some questions: period end of each chapter and provides questions are a. b two sets of papers. Where a basic knowledge of the volume focus on the ability of the test. the basic difficulty of midterm or final exam for the University of difficulty. suitable for beginner students to self-test before the final exam period or as a normal operation to detect the level of their own; b volume is increased demand. there Many questions have a strong and comprehensive. for students preparing for the Graduate Record Examination or the students math contest. readers can also be for the same use at different times. Thus. for different levels of readers. and the same reader at different stages of learning requirements. on the whole reflect the two levels of requirements. In addition. a. b two sets of papers have modeled the latest national graduate entrance examination questions unified scheduling model. the order of questions and forms to make more rational and scientific. 2. Analytical components: a thorough analysis to answer all questions. coaching layers of depth. from the perspective of test questions and doing the angle of reflection questions questions perfectly content. To this end. we set the following features columns: [Quick answers to multiple choice and fill in the blank] in answer to the answer given earlier Quick. so after you finish the topic quickly...
