## OUR NURSERY CATALOG, 1927 (CLASSIC REPRINT) (HARDBACK)

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Our Nursery Catalog, 1927 Everybody knows that shrubs are indispensable, whether on private places, in parks, or any grounds, and may be used in any situation, around porches, at the base of the house, at the entrances, between trees and as backgrounds for perennial borders, or specimens; wherever planted, they always make handsome effects. Our assortment consists of all hardy varieties and is such that flowers may be had during the entire growing season together with the various colors of the bright yellow, brilliant red and sombre shade of purple and variegated foliage. And the Winter effect in some of the Shrubs is very striking, especially so when they come in contrast with white snow, such as the Cornus with its red and yellow bark, the Barberry and Viburnums with their bright red berries that hang on the bushes during the entire Winter. When planting, the best way to balance between the roots and branches is to cut the latter back one-half of last year's growth. The hole should be made large enough to allow the roots to spread out in a natural way, leaving shallow depressions around the plant so that the water will not flow away. The top soil should be kept loose to a depth of two to three inches, thus retaining the moisture. Annual pruning should be done directly after the flowering season, the old straggly wood and spindling shoots should be cut so as to mature flowering buds for the next season excepting a few shrubs that may be trimmed in Winter.
