

The Burning Answer: The Solar Revolution: A Quest for Sustainable Power (Hardback)

By Keith Barnham

PEGASUS BOOKS, United States, 2015. Hardback. Book Condition: New. 229 x 147 mm. Language: English . Brand New Book. Our society faces a choice. We could be enjoying a sustainable lifestyle but we have chosen not to. In three generations we have consumed half the oil produced by photosynthesis over eight million generations. In two generations we have used half our uranium resources. With threats from global warming, oil depletion and nuclear disaster, we are running out of options. Solar power, as Keith Barnham explains, is our necessary solution. In The Burning Answer he uncovers the connections between physics and politics that have resulted in our dependence on a high-carbon lifestyle, which only a solar revolution can now overcome. Einstein s famous equation $E=mc^2$ led to the atomic bomb and the widespread use of nuclear energy; it has delayed a solar revolution in many countries. In a fascinating tour of recent scientific history, Keith Barnham reveals Einstein s other, less famous equation, the equation the world could have relied on. Barnham explains that the roots of solar energy lie in a little known equation $E=hf$, an equation which was coincidentally celebrated (and explained to the world) by Einstein in the same...
