The day that comes without warning, the day when all juniors and seniors at The Peel Academy undergo a series of intense physical and psychological tests to see if they're ready to graduate and become government operatives. Amanda and her boyfriend Abe are top students, and they've just endured thirty-six hours of testing. But they're juniors and don't expect to graduate. That'll happen next year, when they plan to join the CIA--together. But when the graduates are announced, the results are shocking. Amanda has been chosen--the first junior in decades. And she receives the opportunity of a lifetime: to join a secret government organization called the Annum Guard and travel through time to change the course of history. But in order to become the Eighth Guardian in this exclusive group, Amanda must say good-bye to everything--her name, her family, and even Abe--forever. Who is really behind the Annum Guard? And can she trust them with her life?.

### Reviews

*This is the finest publication we have read through right up until now. Better than never, though I am quite late in starting to read this one. It's been written in a remarkably easy way in fact it is only after I finished reading through this book that I basically altered me, affected the way I think.*

*Thorough guideline! It's this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.*
