Greater Mysteries Publications, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. SINCE THE DAWN of mankind, human beings have unquestioningly accepted the self-evident biological truth that there are only two distinct sexes - male and female. Furthermore, this truth was understood to be divinely established, as indicated in the ancient Hebrew writings of Moses: So God created man in his own image . male and female he created them. And God blessed them (Gen 1:27, 28). Similarly with the concomitant truth that there are only two distinct genders - masculine and feminine. Moreover, in ancient times the dual genders were seen as fundamental and complementary universal principles that infused and fashioned everything in the created cosmos. One familiar expression of this ancient metaphysical belief is the Chinese Taoist principles of yin and yang. Throughout history, stable and productive family units, tribal groupings, social communities, and even vast empires were globally established on the exigent foundational truths of sexuality and gender - that is - until very recently. Beginning in the mid-1950s, what had been perennially and universally accepted regarding sex and gender began to be academically questioned and challenged. This ideological heterodoxy quickly accelerated in the 1960s with the inception and radical cultural impact of the sexual revolution and the feminist movement. Increased and well-organized gay and lesbian activism in the 1970s also did much to publicly reject the traditional dichotomies of male-female and masculine-feminine in order to promote a novel range of non-normative sexualities and exotic gender categories. By the early 2000s, sociological theorists, academic institutions, media organizations, civil rights groups, medical associations, political parties, national governments and international agencies were all becoming involved in a cultural drive to mainstream this radically-new and socially-transformative gender ideology. While even to casual observation, it...
