Reviews

This is actually the finest ebook i have study right up until now. I have got study and so i am confident that i will going to read through once again yet again in the foreseeable future. I am happy to inform you that this is the finest publication i have study inside my personal lifestyle and may be he very best pdf for possibly.

(Hobart Anderson II)

**SMITHSONIAN INSTITUTION UNITED STATES NATIONAL MUSEUM BULLETIN 76, VOL. 2:
ASTEROIDEA OF THE NORTH PACIFIC AND ADJACENT WATERS (CLASSIC REPRINT)****DOWNLOAD**

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English Brand New Book ***** Print on Demand *****.Excerpt from Smithsonian Institution United States National Museum Bulletin 76, Vol. 2: Asteroidea of the North Pacific and Adjacent Waters Part 1 of this work, comprising the Phanerozoia and Spinulosa, was issued on June 30, 1911. The present part contains an account of the families Brisingidae, Zoroasteridae, and four subfamilies of the Asteriidae - the Pedicellasterinae, Labidiasterinae, Coscinasteriinae, and Pycnopodiinae. The remainder of the Forcipulata will be described in the final installment, the manuscript of which is completed. Material for study has been derived from the sources which were indicated in Part 1 (p. 1). In addition I have gone over the British Museum collection; some of the types in the Museum d Histoire Naturelle at Paris; the collection of the Peabody Museum, Yale University (including a part of Verrill s material); and all of the collection of the United States National Museum. Through the kindness of Dr. T. Odhner, of the Riksmuseum, Stockholm, I received a small collection from the Vega Expedition as well as miscellaneous Arctic specimens for comparison. The Victoria Memorial Museum (now the National Museum of Canada), Ottawa, forwarded certain of Verrill's types. Dr. Th. Mortensen loaned cotypes of *Asterias amurensis* and an authentic example of *Leptasterias ochotensis*. Dr. Jules Richard, of the Mus6e Ocanographique at Monaco, loaned a cotype of *Sclerasterias guernei*. Dr. H. L. Clark loaned a considerable amount of material from the rich collection of the Museum of Comparative Zoology and, with great patience, has allowed me to dissect many of the AsteriidEe in his care; while Mr. Austin H.Clark has been equally liberal with material from the National Collection. Prof. Wesley R.Coe has aided me in my study of Verri...
