During the last three years, the Department of Veterans Affairs (VA) has made significant progress in establishing its national drug formulary, which has generally met with the prescriber acceptance. Most veterans are receiving the drugs they need and rarely register complaints about prescription drugs. However, VA has not been sufficient to ensure that the Veterans Integrated Service Networks (VISN) and medical centers comply with formulary policies and that the flexibility given to them does not compromise VA's goal of formulary standardization. Contrary to VA formulary policy, some facilities omitted national formulary drugs or modified the closest drug classes. Although a limited number of drugs to supplement the national formulary is permitted, formulary differences among facilities are likely to become more pronounced, as more drugs are added by VISNs, decreasing formulary standardization. VA recognizes the trade-off between local flexibility and standardization, but it lacks criteria for determining the appropriateness of adding drugs to supplement the national formulary and therefore may not be able to determine whether the decrease in standardization is acceptable. This item ships from La Vergne, TN. Paperback.
