THE SCIENCE OF MEDITATION : HOW TO CHANGE YOUR BRAIN, MIND, AND BODY

Penguin Books Ltd (UK) Sep 2017, 2017. Taschenbuch. Condition: Neu. Neuware - A radical reinterpretation of mental exercise from two New York Times bestselling authors - 'What if we could exercise our minds like we exercise our bodies ' - backed by state-of-the-art scientific research More than forty years ago, two friends and collaborators at Harvard, Daniel Goleman and Richard Davidson were unusual in arguing for the benefits of meditation. Now, as mindfulness and other brands of meditation become ever more popular, to fix even more about our lives, they reveal the cutting-edge science of how smart practice can change our personal traits and even our genome for the better. Demonstrating two master thinkers at work, The Science of Meditation explains precisely how and when mind training benefits us. More than daily doses or sheer hours, we need smart practice, including crucial ingredients such as targeted feedback from a master teacher and a more spacious, less attached view of the self, all of which are missing in many versions of mind training. Exploring, too, how new technologies can really help with meditation, this is the truth about what meditation can do for us today. Gripping in its storytelling and grounded in...
