MINING AND CONTROL OF NETWORK TRAFFIC BY COMPUTATIONAL INTELLIGENCE

Condition: New. Publisher/Verlag: Springer, Berlin | This book examines applications of computational intelligence, emphasizing fuzzy techniques, to issues in measurement, analysis and control of Internet traffic. Covers data mining and control problems and practical hardware implementation of systems proposed. | As other complex systems in social and natural sciences as well as in engineering, the Internet is hard to understand from a technical point of view. Packet switched networks defy analytical modeling. The Internet is an outstanding and challenging case...
