After the devastating death of his parents in a plane crash, Lionel Xpofer, a child prodigy and now a very young college professor, is driven deeper into his research. The journey leads to the creation of DESA, an organization populated by disgruntled military, artificial intelligent beings utilizing electronic templates of DNA, and scientists of all types. Xpofers quest reaches literally into outer space and along the way uncovers political corruption run amuck with deception and double dealing not only with humans but with alien beings.
