Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.What problems are you facing and how do you consider Data Architecture will circumvent those obstacles? Who will be responsible for making the decisions to include or exclude requested changes once Data Architecture is underway? What key business process output measure(s) does Data Architecture leverage and how? How does the organization define, manage, and improve its Data Architecture processes? Will new equipment/products be required to facilitate Data Architecture delivery for example is new software needed? Defining, designing, creating, and implementing a process to solve a business challenge or meet a business objective is the most valuable role. In EVERY company, organization and department. Unless you are talking a one-time, single-use project within a business, there should be a process. Whether that process is managed and implemented by humans, AI, or a combination of the two, it needs to be designed by someone with a complex enough perspective to ask the right questions. Someone capable of asking the right questions and step back and say, What are we really trying to accomplish here? And is there a different way to look at it? For more than twenty years, The Art of Service s Self-Assessments empower people who can do just that - whether their title is marketer, entrepreneur, manager, salesperson, consultant, business process manager, executive assistant, IT Manager, CxO etc. - they are the people who rule the future. They are people who watch the process as it happens, and ask the right questions to make the process work better. This book is for managers, advisors, consultants, specialists, professionals and anyone interested in Data Architecture assessment. Featuring 372 new and updated case-based questions, organized into seven core areas of process design, this Self-Assessment...
