Then be able to Achieve Financial Freedom and Live The Life Of Your Dreams! Real estate has been in existence since people have decided that living in caves was no longer an option. However, most progress in real estate has probably happened in the last two century or so with the invention of the elevator. Elevators made it possible for real estate to include high-rise office buildings, multiple-floor residential apartment houses, and shopping malls. Investing in commercial real estate is very different from dealing with residential properties. Oftentimes commercial real estate deals require very little or even no capital. While commercial estate can be very risky, it can also be very safe because of a number of things you can do with commercial buildings that you can't do with residential dwellings. We will discuss all these differences and strategies later on in this book. Most people think that investing in commercial real estate is very similar to dealing with residential properties with the only differences being that that the money amounts are larger and contracts are longer. The reality is completely different. There are a lot of distinctions between commercial and residential real estate when it comes to legal, practical and operational aspects. Investing in commercial real estate is a great way to build wealth. The reason why commercial estate is a great vehicle for generating wealth can be explained in one word. This word is leverage. Leverage when applied to commercial real estate means that your returns from your commercial real estate investments can be much bigger than the...
