Victor Marius, an inspired scientist and budding entrepreneur, is lost in a shipwreck off the coast of Cape Cod in the summer of 1891. But before he disappears beneath the waves he manages to release a strange box that he hopes will protect his legacy. Amanda Malcom, a young woman enduring a troubled marriage, is about to make a discovery that will lead her on a dangerous odyssey - one that takes her across the country, and into the heart of a rapidly changing America. Along the way, she meets Plains Indians, ex-slaves, riverboat charlatans, and secretive workers who champion the U.S. labor movement. At a time when electric lighting is spreading across the country like a wave, she also meets inspired engineers and Montana miners who dig deep to feed the country s insatiable demand for copper. Amanda has survived many things in her short life, but it s not clear if she will be able to survive the first year of the last decade of the 19th century.
