Metal Ceramic Restorations (Materials and Techniques)

By Kumar, Lalit / Sapra, Charu

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | The last 60 years have witnessed an unbelievable amount of change in restorative dentistry. To examine the present stage of the restorations development requires an appreciation of the allied sciences which have contributed and continue to contribute to its evolution. Physics, chemistry, engineering and the material sciences have all helped to rationalize our approach to metal ceramic restorations. The laws and principles of these allied sciences have greatly aided the quest for predictability. The unsurpassed aesthetic, mechanical and biocompatible qualities of metal ceramic restorations still provide the stimulus to seek methods to overcome their minimal limitations. This text book outlines some interesting aspects of recent developments and considers the present state of the art with respect to both materials and techniques for metal ceramic restorations. | Format: Paperback | Language/Sprache: english | 96 pp.

Reviews

This sort of ebook is everything and got me to searching in advance plus more. I could comprehend everything out of this created e pdf. You are going to like just how the author compose this pdf.

-- Prof. Ethelyn Hoeger

It becomes an incredible publication that we actually have at any time read. It is one of the most incredible book i actually have go through.
