

The Fundamentals of Argument Analysis

By Richard L Epstein

Advanced Reasoning Forum, United States, 2013. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.This series of books presents the fundamentals of logic in a style accessible to both students and scholars. The text of each essay presents a story, the main line of development of the ideas, while the notes and appendices place the research within a larger scholarly context. The essays overlap, forming a unified analysis of logic as the art of reasoning well, yet each essay is designed so that it may be read independently. The question addressed in this volume is how we can justify our beliefs through reasoning. The first essay, Arguments, investigates what it is that we call true or false and how we reason toward truths through arguments. A general theory of argument analysis is set out on the basis of what we can assume about those with whom we reason. The next essay, Fallacies, explains how the classification of an argument as a fallacy can be used within that general approach. In contrast, there is no agreement on what the terms induction and deduction mean, and they are not useful in evaluating...
