### **Reviews**

*Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You wont really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).*

GAO discussed strategies to curb Medicare spending, which has grown by over 10 percent a year since 1989, twice the rate of the national economy. GAO noted that: (1) Medicare has not used tools used by private health care payers to manage and improve its utilization, reimbursement, and claims policies and procedures; (2) Medicare's smaller categories of services, which are typically less managed and monitored, have displayed much higher growth than its larger categories of services; (3) the Health Care Financing Administration (HCFA) has been slow to address overpricing and overutilization problems, sometimes taking years to adjust excessively high payment rates; (4) strict statutory constraints and its own burdensome regulatory and administrative procedures hinder HCFA from using such private-sector management tools as case management, preferred providers, or discount negotiation; (5) in an effort to change its role from claims processor to prudent manager, HCFA has initiated demonstrations to explore its use of competitive bidding for certain supplies, case management, and preferred providers; and (6) proposed legislation could give HCFA the funding and flexibility it needs to better manage its contractors and services. This item ships from La Vergne, TN. Paperback.
