Conducted by an unbiased outside observer, such as a behavior consultant or school psychologist, PreSET helps programs assess universal features of effective PBIS across 8 key categories, measure progress toward their goals, and target quality improvement efforts. This CD-ROM includes all the printable forms needed for PreSET implementation: the four PreSET forms (Administrator Interview Guide, Classroom Interview and Observation, Classroom Summary, and Scoring Guide), plus two forms for planning next steps (an Action Plan and Sample Feedback Form). The essential Manual (sold separately) gives users thorough guidance on conducting and scoring PreSET, a technical appendix of research, and a case study that walks readers through an entire evaluation. A separate Manual gives users thorough guidance on conducting and scoring PreSET, a technical appendix of PreSET research, and a case study that walks the reader through an entire evaluation. With this comprehensive tool, early childhood programs will have the data they need to ensure effective PBIS and work toward better social-emotional development for all young children. Learn more about the entire PreSET system. See which domain of school readiness in the Head Start Child Development and Early Learning Framework this tool addresses.
