

Critical Infrastructure Protection: Dhs Is Taking Action to Better Manage Its Chemical Security Program, But It Is Too Early to Assess Results: Gao-12

By -

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The November 2011 memorandum that discussed the management of the Chemical Facility Anti-Terrorism Standards (CFATS) program was prepared based primarily on the observations of the Director of the Department of Homeland Security's (DHS) Infrastructure Compliance Security Division (ISCD), a component of the Office of Infrastructure Protection (IP) within the National Protection and Programs Directorate (NPPD). The memorandum was intended to highlight various challenges that have hindered ISCD efforts to implement the CFATS program. According to the Director, the challenges facing ISCD included not having a fully developed direction and plan for implementing the program, hiring staff without establishing need, and inconsistent ISCD leadership-factors that the Director believed place the CFATS program at risk. These challenges centered on human capital issues, including problems hiring, training, and managing ISCD staff; mission issues, including overcoming problems reviewing facility plans to mitigate security vulnerabilities and performing compliance inspections; and administrative issues, including concerns about NPPD and IP not supporting ISCD's management and administrative functions.
