

The Evolution of Worlds: President s Address, Annual Meeting, January 10, 1911 (Classic Reprint) (Paperback)

By Alfred T Delury

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Evolution of Worlds: President s Address, Annual Meeting, January 10, 1911 In the paper of this evening. We are to consider the more striking evidences of development in that vast extent of time and space which is regarded as the domain Of astronomv. Here as in other sciences - ii we are not insisting too much on this cir cumstance the idea of evolution is not new. Passing over not a few earlier and worthy attempts to account for the present order of things with and about us - our world, and those bodies the moon, the sun, the planets to which our world is neighbor and near-bred we mav cite the bold and harnumising hypothesis of Laplace, with which should be associated also the names of Wright and Kant, though their speculations were not known to Laplace. This Nebular Hypothesis or Theory.con tenzplated a vast nebula occupying a space greater than that whose limits are suggested by the orbit of the outermost planet. This nebula, through rotation, and contraction from the emission Of heat. Under the operation of dynamical laws,...

Reviews

Very beneficial for all type of individuals. I have got study and so i am certain that i am going to going to read through once again once again later on. I am just happy to let you know that this is basically the greatest publication i have study during my own daily life and could be he finest pdf for ever.

-- Prof. Nelson Farrell MD

I actually started out reading this article ebook. This is for those who statte that there had not been a worth reading. Its been developed in an extremely easy way and it is just after i finished reading this book in which in fact modified me, change the way i really believe.
