DEVELOPMENT OF TRANSDERMAL PATCHES OF CARVEDILOL: A NOVEL APPROACH

Development Of
Transdermal Patches Of
Carvedilol: A Novel
Approach

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Hypertension is one of the common disorder for the mankind. It is not a disease in itself, but is an important risk factor for cardiovascular mortality and morbidity. The conventional drug delivery system is not effective to cure and provide a immediate or controlled release action to overcome this problems, Transdermal delivery system is effective as this delivery system lying under the category of controlled drug delivery, in which the aim is to...
