paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Publisher: China Electric Power Pub. Date :2009-03-01. This book describes the development and design tools commonly used application microcontroller experiments. single-chip-based experiments and comprehensive experimental. single-chip system with the experimental vehicle. etc. to highlight the typical car circuit with a microcontroller system design. programming and experimental operation. The book is divided into five chapters. including 25 pilot projects. Chapter 1 is a single-chip integrated circuit design. software development environment and application experiments. the relatively common practice of single-chip development and design T with the use of methods. Chapters 2 and 3 are single-chip instruction and program design experiments. single-chip features and interface experiments. these two chapters for a microcontroller-based experimental content. Chapter 4 is a single-chip integrated experimental system provides a common application examples and comprehensive practice opportunities. with a strong comprehensive. well as provide the basis for experiments in Chapter 5. Chapter 5 is a car with single-chip system experiments. Arranged for five typical automotive MCU system pilot project. so that readers understand the microcontroller through the experimental system in the vehicle application. learn the typical MCU system of vehicle hardware and software design and debugging. to a simple system design. This book can be used as vehicle engineering. transportation and other professional and undergraduate college students SCM Experimental Teaching books. but also for related engineering and technical officers. Contents: Preface Chapter 1 single-chip integrated circuit design. software development environment and application of experimental application of experimental 1Keil C51 using Protel DXP Experiment 2 Experiment 3 Experiment design circuit design circuit boards using Protel DXP experiments Chapter 2 chip instruction and program design Four Satisfaction guaranteed, or money back.
