Society for American Baseball Research. Paperback / softback. Book Condition: new. BRAND NEW, The Sabr Review of Books, Volume 2: A Forum of Baseball Literary Opinion, Society for American Baseball Research, Society for American Baseball Research (Sabr), In this issue . . . If experiencing the game of baseball were limited to actual participation or in-person attendance, the sport would mean much less to all of us that it does. Because we read about the game, we can enjoy it long after the fact, and in a whole new form: digested, chewed, analyzed, stat-icized. The electronic media have also played a big part -- letting up "be there" for games many miles too far for a drive. This two-sided richness of enjoying baseball is at the two-sided center of this edition of "The SABR Review of Books." "The SABR Review of Books" is here to provide literary opinion, so we begin with a survey of a blue-ribbon panel of baseball writers and researchers, asking the question, "What books would constitute the essential baseball library?" We compiled the results and added the comments of the participants. What we got is an intriguing forum that sounds like a SABR bull session ----
