Crypt Publishing, Mauritius, 2011. Paperback. Condition: New. Language: English . Brand New Book. Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online. OurColony is a search opera type alternate reality game and a viral marketing campaign for the marketing of a successor to the Microsoft Xbox. The game asks players to form colonies and earn points by completing various tasks. This use of an ARG is similar to I Love Bees, which was a viral marketing campaign for the Xbox game Halo 2 and another recent ARG for the Xbox 360 game Halo 3. On 14 March 2005, emails were sent to members of the ARG community, from someone named Gamem8ker, with a link to an image. On the main page of the site were instructions to submit 36 images, as well as a strange series of letter combinations. It was explained that when the right 36 pictures are sent to me, the real game begins. The letter combinations turned out to be the codes of international airports.
