

Resources for Reform: Oil and Neoliberalism in Argentina (Paperback)

By Elana Shever

Stanford University Press, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book. While most people live far from the sites of oil production, oil politics involves us all. Resources for Reform explores how people's lives intersect with the increasingly globalized and concentrated oil industry through a close look at Argentina's experiment with privatizing its national oil company in the name of neoliberal reform. Examining Argentina's conversion from a state-controlled to a private oil market, Elana Shever reveals interconnections between large-scale transformations in society and small-scale shifts in everyday practice, intimate relationships, and identity. This engaging ethnography offers a window into the experiences of middle-class oil workers and their families, impoverished residents of shanty settlements bordering refineries, and affluent employees of transnational corporations as they struggle with rapid changes in the global economy, their country, and their lives. It reverberates far beyond the Argentine oil fields and offers a fresh approach to the critical study of neoliberalism, kinship, citizenship, and corporations.

Reviews

This pdf may be really worth a read, and superior to other. It generally does not price too much. Once you begin to read the book, it is extremely difficult to leave it before concluding.

This type of publication is almost everything and helped me looking forward and much more. I am quite late in start reading this one, but better then never. You wont really feel monotony at whenever you want of your own time (that's what catalogs are for relating to if you ask me).
