

## Assessment Skills for Paramedics

By Graham Harris

Open University Press. Paperback. Condition: New. 328 pages. Dimensions: 9.0in. x 6.0in. x 0.9in. This book provides a helpful and comprehensive insight into the role of the paramedic. It utilises a variety of experts within the field to illustrate many of the issues often confronted by those working within this area. Ideally suited for those starting a career in the out-of-hospital setting, as well as experienced paramedics. John Donaghy, Principal Lecturer and Professional Lead, Paramedic Science, University of Hertfordshire, UK. This book is the first of its kind in the paramedic world and acts to cover every important topic needed to have an appreciation for health-related research. . . . The format is easy to follow and helps the reader to have a foundation knowledge of the language and terminology used within the research world. . . . This book should be a must-have for any student paramedic and will be invaluable to those writing dissertations or studying health-related research. Ruth Lambert, Student, University of Northampton, UK. This book is the ideal resource for paramedics and student paramedics looking for a quick reference guide to help develop their assessment skills. This handy pocket-sized book can be...
