Are you waiting for someone in your life to change in order to get what you want? If so, you re not alone. Most people will do anything to avoid the unpleasant sensations that accompany having an honest exchange - even if it s as simple as declining an invitation. But not speaking directly in the short-term results in much bigger problems long-term: hurt feelings and passive-aggressive patterns that stress us out, keep us up at night and literally make us sick. TalkRx will lead you step by step to: - Listen to your body s signals to better manage stress - Create new outcomes with even the most challenging personalities in your life - Articulate your frustration and disappointment effectively - Talk to people instead of about them - Make agreements that stick This book reveals practical yet profound communication tools that will strengthen your relationships, reduce your stress, improve your health and even...
