RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 246 pages. Original publisher: Washington, D. C. : The Office : For sale by the Supt. of Docs. , U. S. G. P. O , 1995. LC Number: HD9006 . A775 1995 OCLC Number: (OCoLC)32583771 Subject: Agriculture -- Environmental aspects. Excerpt: . . . 8 | Agriculture, Trade, and Environment Agriculture is the primary source of pollutants to impaired: Rivers and streams States assessed only portions of rivers, lakes, and coastal estuaries in 1992. In 32 states, agricultural pollutants were the main source of pollution in surface waters that were unable to support their intended uses. Im paired estuaries in Oregon, California, Florida, Delaware, and Connecticut were predominantly effected by agricultural pollutants. Because four states did not report sources of pollution to rivers and lakes (Tennessee, New Jersey, Idaho, and Georgia), and six states did not report sources of pollution to lakes, ponds and reservoirs (Minnesota, Wisconsin, Tennessee, Pennsylvania, Vermont, and Alaska), this map may underestimate agricultures role in those states. NOTE: Data for Alaska and Hawaii is not available. States shaded whlte did not report agriculture as a source of pollution to impaired...

Reviews

This is an awesome publication which i have actually read. This is certainly for all who statte that there was not a well worth reading through. Its been designed in an extremely straightforward way and it is merely after i finished reading this ebook in which actually changed me, affect the way in my opinion.

-- **Marques Pagac**

A top quality ebook and the typeface used was interesting to read through. It is rally intriguing throgh reading through period. You wont feel monotony at anytime of the time (that's what catalogues are for relating to when you ask me).
