*An exceptional ebook along with the typeface employed was intriguing to see. It really is simplistic but surprises within the fifty percent of the ebook. It is extremely difficult to leave it before concluding, once you begin to read the book.*

Walter De Gmbh Gruyter Okt 2016, 2016. Buch. Condition: Neu. Neuware - The latest development concerning the metaphorical use of the fairy tale is the legal perspective. The law had and has recourse to fairy tales in order to speak of the nomos and its subversion, of the politically correct and of the various means that have been used to enforce the law. Fairy tales are a fundamental tool to examine legal procedures and structures in their many failings and errors. Therefore, we have privileged the term 'fables' of the law just to stress the ethical perspective: they are moral parables that often speak of justice miscarried and justice sought. Law and jurists are creators of 'fables' on the view that law is born out of the facts (ex facto ius oritur) so that there is a need for narrative coherence both on the level of the case and the level of legislation (or turned the other way around: what does it mean if no such coherence is found). This is especially of interest given the influx of all kinds of new technologies that are 'fabulous' in themselves and hard to incorporate in traditional doctrinal schemes and thus in the construction of a new reality. 455 pp. Englisch.
