It's everything I've learned during a decade of living online. This is not a get-rich-quick book. However, if you do what it says, you will make money. You will also grow an authoritative personal brand, that will benefit both you and your businesses for years to come. I'm going to tell you how to enjoy creating regular content that will be consumed by a growing community of adoring fans and how to unlock the secrets of social media and email marketing to ask them what they want. And then, how to create products (books, podcasts, videos) to sell to them and others. So, to re-cap: Your brand is followed by an audience. They tell you what they want, you build it and they buy it. And you keep going. It's very simple. And there's more good news: you won't have to spend any money. At the end, I'm going to send you on your way with my strategy ingrained in your mind. This will help you to build your brand, create products and earn passive income. Plus you'll be able to keep going. My strategy ensures there's always more in the tank to give. Creativity breeds creativity. You will enjoy creating content. So, let's get going!.
