

Surveying with Construction Applications: Global Edition

By Barry Kavanagh, Diane K. Slattery

Pearson Education Limited, United Kingdom, 2014. Paperback. Book Condition: New. 8th edition. 232 x 188 mm. Language: N/A. Brand New Book. For all surveying courses in Construction Management, Construction Science, Construction Technology, Civil Engineering, Civil Engineering Technology, Survey Engineering, Resources Engineering and Technology programs. The complete, up-to-date guide to modern surveying for construction and engineering -- now with additional review coverage of all relevant math. Known for its state-of-the-art coverage and clear, concise approach, Surveying with Construction Applications, Eighth Edition covers the latest advances and foundational principles of surveying. Covering both principles and a wide range of contemporary applications, it is well-suited to Fundamentals courses, Applications courses, or both. Revisions focus on recent improvements in instrumentation technology, field data capture, and data processing, describing how these change the way surveyors interact with construction professionals and engineers. The authors emphasize sound measurement technique and accurate documentation throughout. To overcome the limited math skills brought by many new students, they have added an easy-to-read math review chapter, preparing students for all relevant construction layout computations. Teaching and Learning Experience This book will help surveyors master all the modern skills, techniques, and technologies they need to work effectively with construction professionals and engineers:...
