

The Unity Principle: The Link Between Science and Spirituality

By Steven L Richeimer

Innerworld Publications, United States, 2014. Paperback. Book Condition: New. 2nd. 213 x 142 mm. Language: English . Brand New Book ***** Print on Demand *****.Mystics and sages have long maintained that everything in the universe is connected. Recent discoveries in quantum physics and relativity theory show that indeed there is a subtle unifying principle that transcends space and time. Consciousness appears to be that unifying ground substance of creation. Any modern theory of creation must take into account how consciousness is transformed into the basic materials of creation and then into living organisms. One of the most important implications of this theory of everything is that humanity can and must take a path towards realization of the Higher Self and ultimate union with the Creator. Could there be a science of the soul? The Unity Principle is quite the read with plenty to ponder, very much recommended. -MIDWEST BOOK REVIEW.
