

Ion Implantation in Microelectronics

Filesize: 6.52 MB

Reviews

This composed pdf is great. This can be for all those who statte that there was not a well worth looking at. I am just happy to explain how this is actually the finest pdf we have go through inside my own daily life and could be he greatest publication for ever.
(Conrad Heaney)

ION IMPLANTATION IN MICROELECTRONICS

To save **Ion Implantation in Microelectronics** eBook, remember to access the button under and save the ebook or get access to other information that are related to ION IMPLANTATION IN MICROELECTRONICS book.

Book Condition: New. Publisher/Verlag: Springer, Berlin | A Comprehensive Bibliography | During the past ten years the use of ion implantation for doping semiconductors has become an active area of research and new device development. This doping technique has recently reached a level of maturity such that it is an integral step in the manufacturing of discrete semiconductor devices and integrated circuits. Ion implantation has significant advantages over diffusion such as: precision, purity, versatility, and automation; all of which are important for VLSI purposes. Ion implantation has also found new applications in magnetic bubble domain materials, superconductors, and materials synthesis. This book is a comprehensive bibliography of 2467 references of the world's literature on ion implantation as applied to microelectronics. This compilation will easily enable researchers to compare their work with that of others. For easy access to the needed references, the contents are divided into fifty-two subject headings. The main categories are: bibliographies, books and symposia, review articles, theory, materials, device applications, and equipment. An author index and a subject index are also given to provide easy access to the references. The literature from January 1976 to December 1980 is covered. The literature prior to 1976 is the subject, in part, of a previous book by the author (1). The main sources searched were: Physics Abstracts (PA), Electrical and Electronics Abstracts (EEA), Chemical Abstracts (CA), Nuclear Science Abstracts (NSA), and Engineering Index. The volumes and numbers of the abstracts are given to provide access to the abstracts. | I. Bibliographies.- II. Books and Symposia.- III. Review Articles.- IV. Theory.- V. Materials.- 1. General.- 2. Group IV Semiconductors.- A. Silicon.- a. Amorphous.- b. Annealing.- c. Channeling.- d. Concentration Profiles.- e. Electrical and Optical Properties.- f. Lattice Location.- g. Modeling.- h. Polysilicon.- i. Radiation...
