MAN AGAINST NATURE

Avenue Design, Inc., United States, 2007. Paperback. Book Condition: New. 226 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Man Against Nature: Why Are We Damaging Our Biosphere presents a unique perspective on the current state of the environment. It is a journey through human life in nature - the time that wrote man s emotional programming - to the modern world s self-destructive patterns. Written in layman s terms to appeal to the non-academic, this book is an entertaining, offbeat, thought-provoking narrative with an interactive component. The reader is encouraged to share his/her own insights of the ideas presented. Through the wisdom of common consciousness, an outside perspective on ourselves can be generated, hopefully leading to an understanding of how to work with our genetic programming and save this beautiful planet.
