

Building Scalable Web Sites (Paperback)

By Cal Henderson

O'Reilly Media, Inc, USA, United States, 2006. Paperback. Condition: New. Language: English . Brand New Book. Slow websites infuriate users. Lots of people can visit your web site or use your web application - but you have to be prepared for those visitors, or they won't come back. Your sites need to be built to withstand the problems success creates. Building Scalable Web Sites looks at a variety of techniques for creating sites which can keep users cheerful even when there are thousands or millions of them. developer, Cal Henderson, explains how to build sites so that large numbers of visitors can enjoy them. Henderson examines techniques that go beyond sheer speed, exploring how to coordinate developers, support international users, and integrate with other services from email to SOAP to RSS to the APIs exposed by many Ajax-based web applications. This book uncovers the secrets that you need to know for back-end scaling, architecture and failover so your websites can handle countless requests. You'll learn how to take the poor man's web technologies - Linux, Apache, MySQL and PHP or other scripting languages - and scale them to compete with established store bought enterprise web technologies....
