

Monitoring HIV Care in the United States: A Strategy for Generating National Estimates of HIV Care and Coverage (Paperback)

Filesize: 5.97 MB

Reviews

This sort of publication is almost everything and taught me to hunting forward and much more. Yes, it is actually play, continue to an amazing and interesting literature. I am pleased to tell you that this is basically the best book we have read through inside my individual life and could be he finest book for ever.

(Enrique Ritchie Sr.)

MONITORING HIV CARE IN THE UNITED STATES: A STRATEGY FOR GENERATING NATIONAL ESTIMATES OF HIV CARE AND COVERAGE (PAPERBACK)

[DOWNLOAD](#)

National Academies Press, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book. In September 2010, the White House Office of National AIDS Policy commissioned an Institute of Medicine (IOM) committee to respond to a two-part statement of task concerning how to monitor care for people with HIV. The IOM convened a committee of 17 members with expertise in HIV clinical care and supportive services, epidemiology, biostatistics, health policy, and other areas to respond to this task. The committee's first report, *Monitoring HIV Care in the United States: Indicators and Data Systems*, was released in March 2012. The report identified 14 core indicators of clinical HIV care and mental health, substance abuse, and supportive services for use by the Department of Health and Human Services (HHS) to monitor the impact of the National HIV/AIDS Strategy (NHAS) and the Patient Protection and Affordable Care Act (ACA) on improvements in HIV care and identified sources of data to estimate the indicators. The report also addressed a series of questions related to the collection, analysis, and dissemination of data necessary to estimate the indicators. In this second report, *Monitoring HIV Care in the United States: A Strategy for Generating National Estimates of HIV Care and Coverage*, the committee addresses how to obtain national estimates that characterize the health care of people with HIV within the context of the ACA, both before 2014 and after 2014, when key provisions of the ACA will be implemented. This report focuses on how to monitor the anticipated changes in health care coverage, service utilization, and quality of care for people with HIV within the context of the ACA.
