Reviews

The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.BIGGER and BETTER edition in 2018. Pisces are looking out at the garden and seeing great potential - you can envisage trees where there is a fence, tulips in the spring, beds of brightly coloured summer flowers, golden conifers and the fragrance drifting into you home on a summer breeze. Indeed you are looking ahead with eager anticipation but also with knowledge of the work required. A time of planning and vision - you are filled with exciting ideas and are thinking about how with some imagination great things can bloom, transforming what was once barren, dull and uninviting. Jupiter s influence inspires the adventurer in you and time is rolled back to a period in your life where you felt anything was possible, where you leapt at challenges, where set backs were part of the great quest of discovery and when you embraced life. You can feel it is going to be a good summer: a summer of clear blue skies as far as the eye can see. If you have felt as if you horizons had become rather narrow and life has settled into a steady but less than inspiring routine, you can now begin to expand again, all around you the world is bursting into colour as new people, perspectives and creative ideas dawn. Following the success of HOROSCOPE 2014, 2015, 2016, 2017 and the Brexit, US Election and astrology vlogs, Lazuli will again be releasing 12 books: one for each star sign s horoscope for 2018. A big thank you to all the amazon and BN buyers who supported me over the past 4 years and also to my youtube channel subscribers. Are you looking in the mirror...
