GEOENV I - GEOSTATISTICS FOR ENVIRONMENTAL APPLICATIONS

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the Geostatistics for Environmental Applications Workshop, Lisbon, Portugal, 18-19 November 1996 | GeoENV96, the First European Conference on Geostatistics for Environmental Applications held in Lisbon, was conceived to bring together researchers, mostly from, but not limited to Europe, working on environmental issues approached by geostatistical methods. Papers were attracted from fields as diverse as hydrogeology. biology, soil sciences, air pollution or ecology. It is clear that there is a lot of activity on geostatistics for environmental applications as the collection of papers in this book reveals. GeoENV96 was successful in the number and quality of the papers presented which surpassed the initial expectations. There is still a large dispersion on the level of application of geostatistics in the different areas. To help in spreading the most novel applications of geostatistics across disciplines and to discuss the specific problems related to the application of geostatistics to environmental applications, geoENV96 is intended to set the pace and to be the first of a series of biennial meetings. The pace is set, now let us wait for geoENV98. Lisbon, November 1996 The Executive Committee: Jaime Gomez-Hernandez Roland Froidevaux Amflcar Soares TABLE OF CONTENTS Foreword . Vll Hydrology, Groundwater, Groundwater Contaminantion Equivalent Transmissivities in Heterogeneous Porous Media under Radially Convergent Flow X. Sanchez-Vila, c.L. Axness and J. Carrera . . | Hydrology, Groundwater, Groundwater Contamination. Equivalent Transmissivities in Heterogeneous Porous Media under Radially Convergent Flow; X. Sánchez-Vila, et al. Inverse Modelling of Groundwater Flow Incorporating Parameter, Boundary and Initial Conditions and Model Error Uncertainty; J. Valstar, et al. Geostatistical Analysis of Fractured Rock Characteristics; R. Lunn, R. Mackay. On the Application of Stochastic Inverse Modelling to the Fractured Semi-Confined Aquifer of Bagueixe, Portugal; J.P.
