Sea City secedes from America! screams headlines after the man-made island declares itself a floating, sovereign nation, beholden to none. Home to rich, powerful and mostly American staunch political conservatives, it is bound to navigate the seas on its own terms - a new world afloat upon grounded old ideals. Some say it cannot succeed; some are secretly determined that it will not. As the rest of mankind curiously watches and wonders. the world s second grand experiment in freedom unfolds. In this timely and insightful tale of extremist politics, corporate over-reach, religious persecution, individual freedoms and collective hubris, a floating mobile man-made island residence for the extremely wealthy known as Sea City comes under the control of those who would have it stand as an independent nation, apart from the United States corrupting influences and misdirection. Whether the grand experiment in liberty and justice and what is right succeeds or fails depends on the consequences of interactions between William Buckley Hammerfal, the richest man in America, and those surrounding him, including the captivating British-Iranian actress Nazanin Shirazi, engaging national television news personality Kelli Foster, fundamentalist minister Templeton Meriwether, openly-atheist political upstart Abigail Matthews, Hammerfal-rival and wealthy Middle Eastern businessman Ali Rahimi, and a cadre of prominent, staunch politico-ideologues.
